

BLESSING®

PRODUCT GUIDE 2025

BEP-1287S

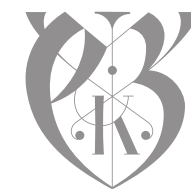

THE BLESSING PHILOSOPHY

Established in 1906, E.K. Blessing began as a family business and quickly recognized what was essential to the music community: a sense of support, security, and shared values. The E.K. Blessing Company honored relationships by listening to their customers and adjusted to the changing times of the 20th century. Blessing believed that a musical experience could change a life and a musical education could bring purpose to a life.

This belief was demonstrated by providing quality musical instruments that were affordable and accessible. As a family business, Blessing helped create products that offered people a connection to others and the feeling that they belonged to something unique and special. Today, St Louis Music owns and operates Blessing Brass & Woodwinds. The core principles of the Blessing family business are still at work 118 years later. Blessing is a trusted and reliable brand name that offers a solid foundation for growth.

Why Blessing? Blessing has the generational experience to understand the transformative change music can make in a person. We are here to encourage and guide that journey.

NOCT

PERFORMANCE SERIES

As students develop musically, they will need an instrument that allows for greater response, tonal color and dynamic range. The Blessing Performance Series offer a great balance between price and performance. Created for the advanced student, these models provide the sound and playability of a professional instrument. Whatever your goal, the Performance Series by Blessing may take you on a lifetime of musical enjoyment.

BTR1460S Bb TRUMPET

The standard bearer in the line, the BTR1460S is a fantastic trumpet for any level of player from the motivated advanced student to the professional musician. It features a yellow brass bell and silver-plated finish that provides a colorful sound that is rich in harmonics. Designed with a traditional standard lead pipe set up, the BTR1460S provides the resistance critical to controlling your sound and performing in all registers with intonation stability.

Well balanced with a tight sound core and the flexibility to manipulate sound color, the BTR1460S is accessible, offering both the playability and value comparable to a professional model trumpet. The BTR1460S outfit includes a stylish lightweight back-pack to case that offers excellent protection and ease in mobility. Dependable and reliable, the BTR1460S is designed to inspire confidence and musical development.

Includes: Blessing Pro Backpack Case, Blessing Polishing Cloth, Premium Mouthpiece, Valve Oil and Slide Grease.

BFH1541RT FLUGELHORN

Historically, the Model 1541 Flugelhorn has perennially been a Blessing best seller. It is ideal for both the student or the professional musician. In performance, a player will experience a smooth feel, transitioning between trumpet and flugelhorn without compromising the characteristic warm and mellow ‘flugel’ sound. Offering professional features that include an adjustable 3rd valve slide trigger, the Blessing BFH1541RT is an upgrade in playability at a fraction of the cost.

BFH1541RT Brushed Brass Clear Lacquer Finish. A Lacquered Matte or “Satin” finish option is achieved by scratch brushing the instrument before it is lacquered. The inside of the bell has a shiny lacquer finish providing a beautiful contrast to the body. The lacquer finish will protect the integrity of the brass and is thicker than plating. It is efficient, requiring less maintenance than a plated instrument because it doesn’t tarnish. The sound is stable yet warm and lush.

- Performance Series

3FL Mouthpiece

Designed with the advanced student in mind, the BFH1461N Double French Horn offers features preferred by a generation of American hornists. The large throat nickel bell affords a rich sound with greater tonal depth and maximum projection. The design offers a flexible instrument that is responsive and free blowing. The string linkage provides a smoother, quieter feel that teachers and professionals prefer. The BFH1461N offers possibilities for players of all ages and abilities.

Includes: Blessing ABS Molded Case, Blessing Polishing Cloth, Blessing Mouthpiece, Rotor Oil, Bearing Oil, Key Oil, and Slide Grease.

- Blessing C-1461DFR Lightweight Backpack Style Case.

BTB1488 TROMBONES

For generations, Blessing has offered an affordable large bore F-attachment trombone for the advanced trombonist without compromising on build quality and playability. Approved by educators for decades, the classic B88 was a traditional first choice for a serious student, laying the foundation in high school bands across the USA.

The new BTB1488 trombones are an evolution of this legacy. Design refinement in the hand-slide construction and body bracing offer a more resonant instrument that is responsive and easier to play with fantastic projection. At Blessing, our core values remain the same. The BTB1488 Performance trombones offer accessibility to a path for rapid growth and musical development along with a modern playing experience that rival many professional models.

- Performance Series

- Blessing C88TB Deluxe Case

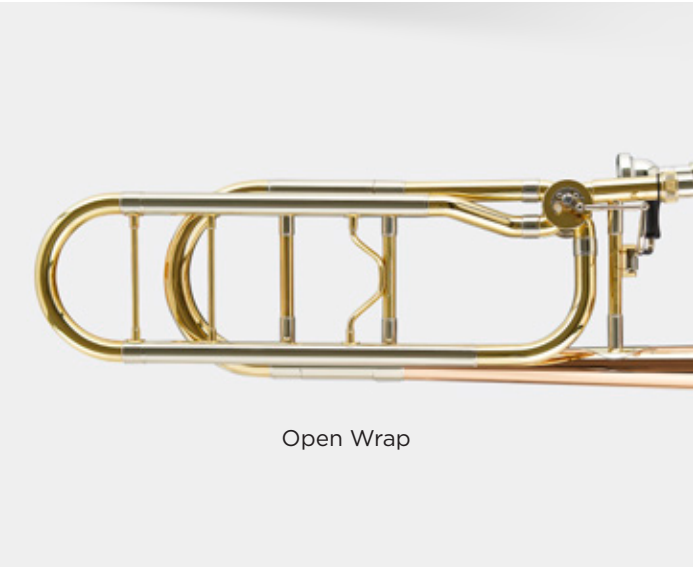

6.5AL Mouthpiece

Includes: Blessing Case, Blessing Polishing Cloth, Premium Mouthpiece, Slide oil and Slide grease.

BTB1488 TROMBONES

Open Wrap

Closed Wrap

Wrap Options: Traditional / Closed Wrap vs. Open Wrap

The term **wrap** refers to the configuration of additional tubing for the F-attachment section of the trombone.

Closed Wrap Traditional or closed wrap trombones have a tighter wrap tubing which provides a more resistant playing instrument.

Open Wrap The open wrap has fewer bends and a straighter pathway for the air; providing a freer blowing option.

Bell Options: Yellow Brass vs. Rose Brass

Yellow brass (70% copper 30% zinc) Yellow brass offers a consistent timbre at all dynamic levels and registers with wonderful projection.

Rose brass (85% copper 15% zinc) Due to the higher copper content, the rose bell is a darker bell at softer dynamic levels but will become more brilliant at forte to fortissimo.

Finish Options: Lacquer Finish vs. Silver Plate

Lacquer is a clear epoxy protective coating that is sprayed onto the instrument in the finishing process to maintain its clean appearance. Since it is thicker than plating, it tends to offer more focus and support to the sound. The following Blessing BTB1488 trombone models have a lacquer finish: BTB1488 and BTB1488R closed wrap and BTB1488O and BTB1488OR open wrap.

Silver plating is thinner than lacquer providing more resonance and brilliance, which is ideal for outdoor performance. However, a silverplated horn will require more maintenance because it will tarnish over time. The following Blessing BTB1488 trombone models are silver plated: BTB1488S closed wrap and BTB1488OS open wrap. Both have yellow brass bells.

MODEL	BELL	WRAP	FINISH	RESISTANCE AND SOUND
BTB1488	Yellow Brass	Closed	Lacquer	Tighter / More Resistance Colorful and consistent in timbre for all ranges and dynamic levels.
BTB1488O	Yellow Brass	Open	Lacquer	Freer Blowing / More Open Yellow brass offers a clear, pure sound that is even and consistent throughout a player's dynamic and tonal range.
BTB1488R	Rose Brass	Closed	Lacquer	Tighter / More Resistance Rose brass is warm and vibrant with more flexibility in color depending on dynamics.
BTB1488OR	Rose Brass	Open	Lacquer	Freer Blowing / More Open The additional copper content in rose brass offers a more complex tone, rich in overtones. A rose bell gives a warm, dark sound at softer dynamics, moving to greater brilliance and improved projection at louder dynamic levels.
BTB1488S	Yellow Brass	Closed	Silver	Tighter / More Resistance Very clear, focused, directional sound with brilliance.
BTB1488OS	Yellow Brass	Open	Silver	Freer Blowing / More Open Very resonant with better projection and rich character particularly at louder dynamic levels.

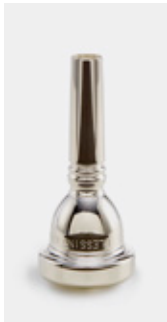

BVT1470 VALVE TROMBONE

Historically, the valve trombone was one of the most popular models offered by Blessing. The BVT1470 Valve Trombone continues in this tradition. Pitched in Bb and designed with a trumpet valve block, the valve fingerings are identical to the trumpet, but the sound is one octave lower. It is the perfect double for a trumpeter or affordable alternative for members of the low brass section that prefer the traction valves provide, particularly for fast passages that may be problematic for a hand slide. With its bell forward projection, the BVT1470 provides the playability desired in school marching, pep, or jazz band settings.

BBTB62R BASS TROMBONE

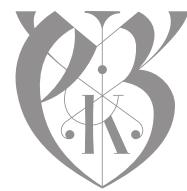

The dark, weighty tone of the BBTB62R Bass Trombone provides a strong foundation and stability to any trombone section. Designed with professional features, this model includes a large 9.5" rose brass bell, which allows for a broad, colorful sound, more volume, and more natural production of the lower partials. The independent valve system affords the player an extra set of slide positions to aid with tuning and make natural slide changes. A bass trombone helps the tuba section anchor a band, and our BBTB62R is no exception. With a premium placed on playability, we highly recommend the Blessing BBTB62R bass trombone for advanced band programs.

- Performance Series
- Key: Bb/F/Gb

STANDARD SERIES

The reputation of Blessing was built on providing durable and affordable entry level wind instruments for students without sacrificing playability. Our legacy and experience offers reliability and confidence for both educators and parents. Stable and sturdy, these models are designed with the beginner in mind, laying a solid foundation in sound and technique.

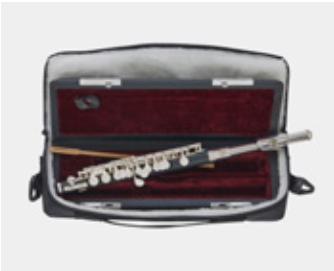

BPC1287 PICCOLO

A preferred choice by educators, the new Blessing BPC1287 is ideal for a student’s first piccolo. Our BPC1287 Piccolo is the perfect option for both stage or field performance. It is reliable, built to withstand the rigors of a school music program. It meets expectations for intonation and playability providing a bright clear tone at forte or a delicate light sweet sound at lower dynamic levels. ‘Stars and Stripes’ never sounded so good.

- Standard Series
- Key of C
- ABS Resin Body
- Silver Plated, Nickel Silver Headjoint
- Silver Plated, Nickel Silver Keys
- Split-E Mechanism
- Ribbed Key Post Construction
- Pisoni Pads
- Blessing C1287PC Wooden Case and Case

Includes: Premium Wood Case and Padded, Lined Case Cover complete with Cleaning Rod.

BFL1287 FLUTE

The new Blessing BFL1287 Flute is designed to perform and provides both the durability and playability for a young player to succeed. Standard configuration; closed hole, offset G key, and C foot makes this instrument easier to learn for a beginner. Reliable and responsive, the BFL1287 has a very even scale with a rich, brilliant, colorful sound. It would be an excellent way to start a musical career.

- Standard Series
- Key of C
- Plateau Model Closed hole
- Offset G
- Silver Plated Nickel Silver Body and Headjoint
- Silver Plated Keys with Neoprene Bumpers
- Easily Accessible Top Adjustment Screws
- Stainless Steel Springs
- Pisoni Pads
- Blessing C1287FL ABS Molded Case

Includes: ABS Molded Case and Cleaning Rod.

BCL1287 Bb CLARINET

For generations, Blessing has been a name music teachers trust for a quality student instrument. Our Blessing BCL1287 Bb Clarinet is no exception. The BCL1287 has features found on the best student clarinets. It is responsive and easy to play, which allows for a focused, strong characteristic sound. A durable ABS plastic resin body and sturdy key mechanism make this clarinet a top choice for the musical demands of a beginner.

- Standard Series
- Key of Bb
- 17 keys, 6 rings Key System, 65mm Barrel
- Matte finish ABS Resin Body, Barrel, and Bell
- Nickel Silver, Nickel Plated Keys
- Fixed Thumb Rest with Neck Strap Hook
- Undercut Tone Holes
- Blued Steel Springs and Valentino Pads
- Mouthpiece, Ligature and Cap
- Blessing C1287CL ABS Molded Plastic Case

Includes: ABS Molded Case, Blessing Polishing Cloth, Mouthpiece, Ligature, and Cap, Swab and Cork Grease.

BAS1287 ALTO SAXOPHONE

In the Blessing tradition, the BAS1287 Eb Alto Saxophone design keeps the long-term goals of the beginning saxophonist in mind. Durable, economical, and ergonomic in construction, the BAS1287 offers the quick response, intonation, and tone usually found on more expensive instruments. With the range from low Bb to high F#, the BAS1287 allows room for musical advancement and could take a beginner from elementary school through senior year.

- Standard Series
- Key of Eb
- High F# key
- Yellow Brass Neck, Body and Bell
- Nickel Plated Keys
- Post to Body Construction
- Adjustable Right Hand Thumb Rest
- Left and Right Hand Section Adjusting Screws
- Rocking Table Key Mechanism with Articulated C# Adjusting Screw
- Stainless Steel Springs
- Pisoni Pads with Metal Resonators
- Clear Lacquer Finish
- Mouthpiece, Ligature and Cap
- Blessing C1287AS ABS Molded Plastic Case

BTS1287 TENOR SAXOPHONE

Designed for durability but not at the expense of playability, the Blessing BTS1287 Tenor Sax will keep a student interested in developing their skills from elementary school through high school. The BTS1287 is a perfect place to start and grow. It has a solid feel and is easy to play providing the excellent intonation, quick response and the classic sound associated with higher end models. With professional style key work, a high F# option and adjustable thumb rest, the BTS1287 is a competitive student saxophone at an affordable price.

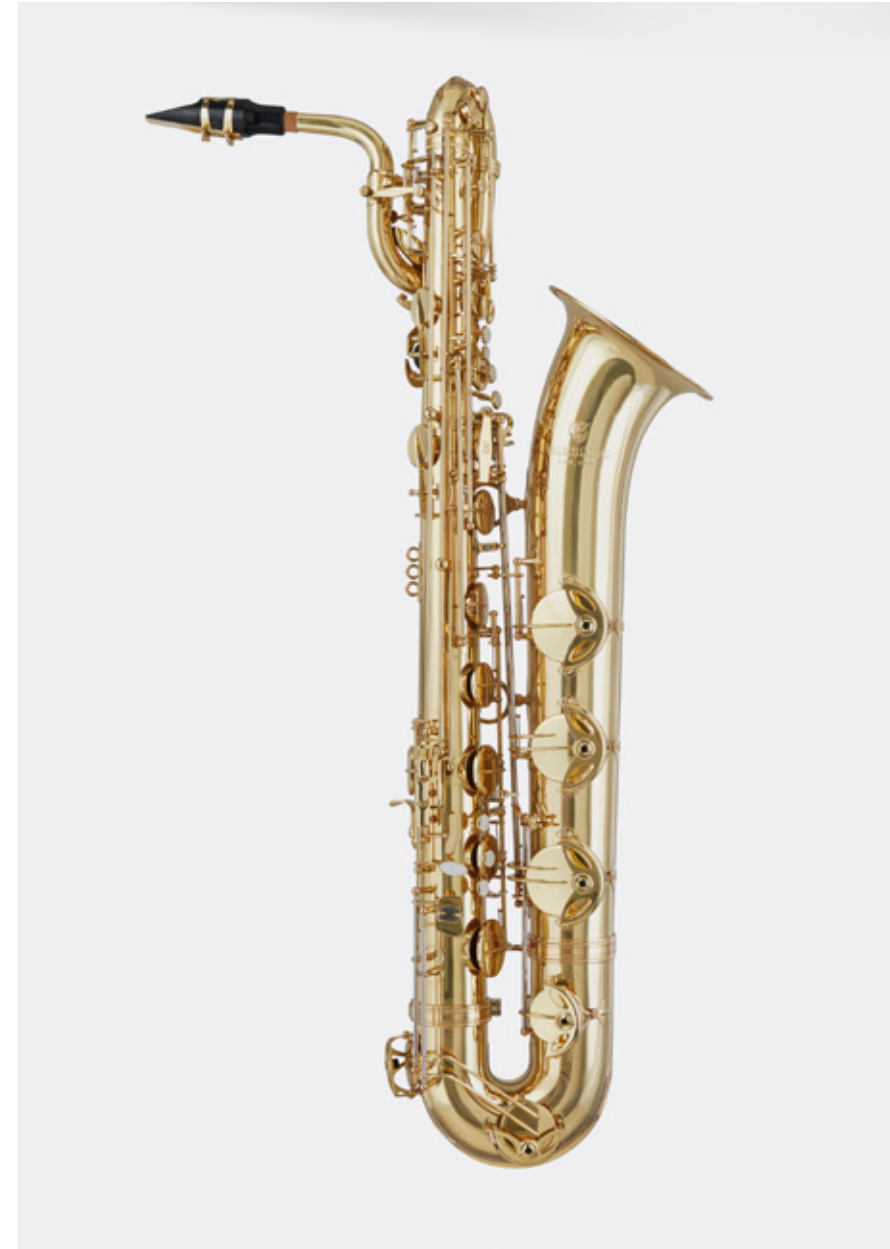

- Standard Series
- Key of Bb
- High F# key
- Yellow Brass Neck, Body, and Bell

BBS1287 Eb BARITONE SAXOPHONE

 BLESSING®

If you are looking for a well built, economical baritone saxophone for the school band, the Blessing BBS1287 Bari is what you will need. Reliable and substantial, the BBS1287 offers professional features with a range from low A key to high F#. Most importantly, the sound is rich and resonant with solid intonation. The Blessing BBS1287 is ideal for your first “Bari” or for a doubler to anchor a woodwind section.

BTR1287 Bb TRUMPET

Our BTR1287 is designed for the classroom and built with the beginning student in mind. It allows them to achieve success right away. The two-piece yellow brass bell provides a consistent and even sound that is vibrant. Acknowledged for its durability, our BTR1287 is a reliable entry level trumpet. It is balanced and easy to play allowing for a great sound.

Options: Clear Lacquer or Silver Plate finish.

BTR1287 Bb Trumpet with Clear Lacquer Finish. A lacquer finished trumpet is the first choice recommended for beginners. Lacquer is a clear epoxy coating applied in the final finishing process to protect the natural finish of the brass. The tone is warm, clear, and focused. It is less expensive and easier to maintain.

BTR1287S Bb Trumpet with Silver Plate Finish. Silver plating is a richer looking finish. Because it is thinner compared to a lacquer finish, the sound is more responsive and resonant with added brilliance and better overall projection. More care is required to maintain a silver finish.

- Standard Series
- Key of Bb
- .460" ML Bore
- 5" Bell Diameter
- Yellow Brass Lead Pipe
- Yellow Brass Body
- Yellow Brass; Two-piece Bell
- Brushed Yellow Brass Top and Bottom Caps
- Plastic Finger Buttons
- Finish Options: Clear Epoxy Lacquer or Silver Plate
- Stainless Steel Pistons
- Adjustable 3rd Valve Slide Ring
- Blessing 7C Trumpet Mouthpiece
- Blessing C1287TR Thermoplastic Case

7C Mouthpiece

Includes: Deluxe C1287TR Case, Blessing Polishing Cloth, Premium Mouthpiece, Valve Oil and Slide Grease.

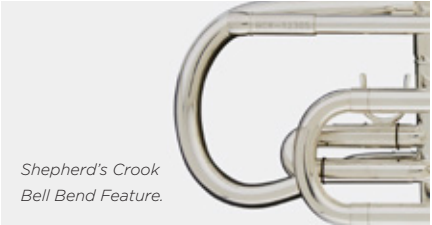

BCR1230 Bb CORNET

Configured like a professional cornet, the BCR1230 offers playability, reliability and affordability for a student or school band program. The yellow brass bell with Shepherd's crook provides a warm, colorful tone. It has a fixed 1st valve saddle and 3rd slide ring to encourage proper habits for correcting intonation tendencies. Smaller and more compact than a trumpet, the cornet is more comfortable to handle for a young student. The BCR1230 Cornet is an excellent option for the beginner in developing a strong foundation in brass concepts.

Options: Clear Lacquer or Silver Plate finish.

BCR1230S Bb Cornet with Silver Plate Finish. Silver plating is a richer looking finish. Because it is thinner compared to a lacquer finish, the sound is more responsive and resonant with added brilliance and better overall projection. More care is required to maintain a silver finish. Silver plating is more expensive and usually found on professional level cornets. Preferred by traditionalists, the Shepherd's crook bell bend on the

bend on the BCR1230 offers a more characteristic cornet timbre which is rich and mellow.

BCR1230 Bb Cornet with Clear Lacquer Finish. Lacquer is a clear epoxy coating applied in the final finishing process to protect the natural finish of the brass. The tone is warm, clear, and focused. It is less expensive and easier to maintain.

- Standard Series
- Key of Bb
- .460" ML Bore
- 4" Bell Diameter
- Yellow Brass Lead Pipe
- Yellow Brass Body
- Yellow Brass; Two-piece Bell with Shepherd's Crook
- Plastic Finger Buttons
- Finish Options: Clear Lacquer or Silver Plate Finish
- Stainless Steel Valves with First Valve Saddles
- Fixed Third Slide Finger Ring
- Blessing 5C Cornet Mouthpiece
- Blessing C1230CR Wooden Leatherette Case

5C Mouthpiece

Includes: C1230 Wooden Leatherette Case, Blessing Polishing Cloth, Premium Mouthpiece, Valve Oil and Slide Grease.

BFH1287 F FRENCH HORN

Rich in the low and mid ranges, the Blessing BFH1287 single F horn features a classic, natural horn sound. Single horns are used for beginning students and usually rented. Because there is less tubing than a double horn, a single horn weighs considerably less and is much easier for a child to manage. Ideal for a first-time student who is beginning French horn, the Blessing BFH1287 is both economical and easy to play.

Includes: Blessing ABS Molded Case, Blessing Polishing Cloth, Blessing Mouthpiece, Rotor Oil, Bearing Oil, Key Oil, and Slide Grease.

- Standard Series
- Key of F
- Mechanical Linkage
- 469" Bore
- Rose Brass Leadpipe
- 12.24" Two-Piece Yellow Brass Bell
- Medium Bell Throat
- Clear Epoxy Lacquer Finish
- Nickel Silver plated Yellow Brass Tuning Slides
- Blessing C1297FH ABS Molded Plastic Case

MC Mouthpiece

BFH1297 F/Bb FRENCH HORN

Countless band programs now start students on a double horn because it affords players greater accuracy and improved stability in the upper register. Designed for the beginning student, the BFH1297 is responsive with excellent intonation and versatility in tonal color, which is critical for the developing hornist. The Geyer wrap provides a freer blowing instrument which allows for a bigger sound. In the Blessing tradition, the BFH1297 offers maximum playability at an affordable price.

Includes: Blessing ABS Molded Case, Blessing Polishing Cloth, Blessing Mouthpiece, Rotor Oil, Bearing Oil, Key Oil, and Slide Grease.

- Standard Series
- Key of F/Bb
- Geyer Wrap with Mechanical Linkage
- .469" Bore with Rose Brass Leadpipe
- 12.24" Two-Piece Yellow Brass Bell
- Medium Bell Throat
- Adjustable Thumb Fourth Rotor Lever
- Clear Epoxy Lacquer Finish
- Nickel Silver plated Yellow Brass Tuning Slides
- Blessing C1297FH ABS Molded Plastic Case

MC Mouthpiece

BTB1287C Bb TROMBONE

What's the one thing all great trombones must have? A great slide.

Our Blessing BTB1287C is no exception - it is ready for the classroom and the stage. It features a nickel silver outer slide that is ideal for longevity and a chrome plated nickel hand slide is durable without sacrificing the smooth, responsive action required to learn the instrument. Designed for a student, the BTB1287C performs like a professional level model with a rich, resonant sound, quick response and even timbre throughout all registers. With a smooth slide and great resonance, few beginner trombones play as well as the Blessing BTB1287C.

Includes: C1287 Thermoplastic case, Blessing Polishing Cloth, Premium Mouthpiece, Valve Oil and Slide Grease.

12C Mouthpiece

- Standard Series
- Key of Bb

- Blessing 12C Mouthpiece
- Blessing Thermoplastic C1287TB Case

BBH1287 3-VALVE BARITONE

The BBH1287 is a great fit for a first-time student. Beginning band programs benefit from using ‘British bore’ baritones for the simple reason that they are easier to play and more manageable in every way for a young player. It is easy to play because it’s ergonomic and more responsive due to the smaller bore and bell. Additionally, its lighter weight is much easier for a child to manage as they transport back and forth.

- Standard Series
- Key of Bb
- .504" British Style Small Bore
- 8 3/8" Bell Diameter
- Rose Brass Lead Pipe with Yellow Brass Body
- Yellow Brass; Two-piece Bell
- Nickel Silver plated Yellow Brass Tuning Slide

6.5AL Small Shank Mouthpiece

BEP1288 3-VALVE EUPHONIUM

Sturdy construction to withstand the exacting demands of a student musician with room for growth. Designed for entry level performance and enhance the low brass section of a concert band, the BEP1288 features a classic upright bell configuration that offers a rich characteristic sound and easy action stainless steel pistons. An ideal option for a traditional program, the BEP1288 is an affordable full-size 3- valve euphonium that allows a student to get started in the right direction and adds a strong foundation to a school ensemble sound.

- Standard Series
- Key of Bb
- 3 Top Action Valves
- Stainless Steel Pistons
- 15 mm/ 0.591" Bore
- 11-4/5" Yellow Brass Bell
- Rose Brass Mouthpipe
- Yellow Brass Body

- Blessing C-1288 Thermoplastic Case

6.5AL Small Shank Mouthpiece

Blessing C-1288 Thermoplastic Case

BEP1287 4-VALVE EUPHONIUM

Designed for a student, our four valve non-compensating BEP1287 Euphonium is solidly built and durable. It is perfect for school band programs. With four top pistons, the student is introduced to the benefits of a fourth valve without the larger investment associated with fully compensating models. Responsive with excellent intonation and a singing sound quality, the BEP1287 will allow for rapid music development for a beginner to an advanced low brass student.

- Standard Series
- Key of Bb
- 4 Valve Non-Compensating
- .591" Bore
- 11 4/5" Yellow Brass Bell
- Stainless Steel Pistons

BTU1287 TUBA

Compact in size and lighter in weight, the BTU1287 is manageable and an excellent choice for a developing student. Built to handle the rigorous demands of a school band program, our build quality, fit, and finish will allow musical growth and longevity. Easier to hold and play, the BTU1287 features three top action stainless steel valves with the big full sound required to anchor a school band. It also includes an additional detachable leadpipe to convert to an over the shoulder marching tuba.

- Standard Series

MARCHING BRASS

We understand the school band experience and 'marching' is a big part of a student's musical career. Musical growth occurs naturally through camaraderie and marching together often leads to lifelong friendships.

Our Marching Brass is designed for the rigors of both the field and in parade. Bell forward, easy to play and manage, Blessing Marching Brass is the ideal choice to round out the depth of color in any band in motion.

BM111 MARCHING MELLOPHONE

A good Mellophone section is the heart of any great marching ensemble sound. The Blessing BM111 provides the classic, gorgeous horn voicing with more depth and projection power. It is sturdy enough for any marching situation. Bell forward, the sound is focused and designed to project off the field and into the stands.

Options: Clear Lacquer or Silver Plate Finish.

BCM111 Marching Mellophone with Clear Lacquer Finish. A finish preference is dictated by the demands of a marching band, uniformity, or personal taste. Lacquer is a clear epoxy coating applied to protect the natural shiny finish of polished brass. The tone is warm, clear, and focused. It is less expensive and easier to maintain.

BM111S Marching Mellophone with Silver Plate Finish. Silver plating is a richer looking finish. Because it is thinner compared to a lacquer finish, the sound is more responsive and resonant with added brilliance and better overall projection. It is considered more durable but does require extra maintenance.

- Marching Series
- Key of F
- .462" Bore
- 10.5" Bell Diameter
- Rose Brass Lead Pipe
- Yellow Brass Body Material

- Blessing 5 Mellophone Mouthpiece
- Blessing C111 Thermoplastic Case

5Mel Mouthpiece

Includes: Blessing Thermoplastic Case, Blessing Polishing Cloth, Premium Mouthpiece, Valve Oil and Slide Grease.

BM311 MARCHING BARITONE

The BM311 is a forward bell baritone with a huge, resonant sound. It is designed with a large shank mouthpiece and large bore allowing for greater blowing freedom to facilitate the volume demands of outdoor playing. The compact wrap design affords a balanced, focused sound making the BM311 an excellent choice for any marching band in a parade or on the field.

Options: Clear Lacquer or Silver Plate Finish.

BM311 Marching Baritone with Clear Lacquer Finish. A finish preference is dictated by the demands of a marching band, uniformity, or personal taste. Lacquer is a clear epoxy coating applied to protect the natural shiny finish of polished brass. The tone is warm, clear, and focused. It is less expensive and easier to maintain.

BM311S Marching Baritone with Silver Plate Finish. Silver plating is a richer looking finish. Because it is thinner compared to a lacquer finish, the sound is more responsive and resonant with added brilliance and better overall projection. It is considered more durable but does require extra maintenance.

MOUTHPIECES

For over a century, Blessing has built a reputation offering quality products at an affordable price. Purchased by St. Louis Music in 2015, this legacy continues with our commitment to helping a musician achieve their highest aspirations. It’s important for us that you sound your best and feel confident in your equipment.

That starts with the right mouthpiece.

Blessing mouthpieces for brass instruments offer a great value. Made in Germany and CNCmachined out of the highest quality yellow brass, our mouthpieces are manufactured according to the strictest quality guidelines. Blessing provides a comfortable and economic mouthpiece option that allows a student to grow and develop. Blessing offers a selection of models for Trumpet, Cornet, Flugelhorn, French Horn, Mellophone, Trombone, and Tuba. Based on traditional designs, our mouthpieces are sized with specifications that educators know and trust. Choosing the right mouthpiece is critical for creating a quality sound.

Our size options allow for the development of a characteristic tone to meet the varied demands of the student musician including band, orchestra, pep band, marching band, jazz band, etc. Durable, dependable, reliable, Blessing Mouthpieces are a solid choice for any brass student as they start their path on a lifetime of musical enjoyment.
